## REFERENCE

Tokyo and Paris MOU's CIC on Fire Safety (Attached press releases and CIC questionnaire).

## PURPOSE

The International Merchant Marine Registry of Belize (IMMARBE) with the aim to avoid detentions during the Joint Concentrated Inspection Campaign (CIC) by Tokyo and Paris MOUs requires all addressed parties to ensure that ship's procedure and measures are in place with respect to Fire Safety.

## CONTENT

The Joint Concentrated Inspection Campaign will be held by Tokyo and Paris MOUs for three months, commencing from 01 September 2023 to 30 November 2023.

The Port State Control Offices (PSCOs) will use a list of ten (10) selected questions developed by the Tokyo and Paris MOUs to assess that fire-fighting systems and equipment comply with the relevant requirements, that the master and crew members are familiar with operations relating to fire safety, and that equipment is properly maintained and functioning.

When deficiencies are found, actions by the Port State may vary from recording a deficiency and instructing the master to rectify it within a certain period of time to detaining the ship until the serious deficiencies have been rectified. In the case of detention, publication in the monthly detention lists of the Tokyo and Paris MOUs web sites will take place.
